## CAD & Technology Training

# CivilTraining, LLC

a DAVEY company

CivilTraining, LLC provides hands-on and lecture-based training in all aspects of CAD, civil engineering, and survey technology. Training classes meet continuing education requirements for PE and LS recertification. Our courses include:

- AutoCAD® Civil 3D® Essentials and Intermediate
- AutoCAD Civil 3D Survey Essentials
- AutoCAD Civil 3D Survey Field Work Applications
- Autodesk Storm and Sanitary Analysis® and River Analysis®
- AutoCAD Civil 3D Pipe Networks
- AutoCAD Civil 3D Advanced Grading Applications
- AutoCAD Civil 3D Advanced Corridor Applications
- AutoCAD Essentials, Intermediate, and Advanced
- GIS Applications with Esri and Autodesk Solutions
- Survey Field Crew, Linework, and Data Collection

Hands-on Civil 3D Class Using CivilTraining, LLC Portable Training Lab

CivilTraining, LLC offers a variety of instructor-led training programs taught by certified instructors. Classes are delivered on-site or from our facilities in Virginia, New Jersey and New York. We believe strongly in the value derived from live interaction between students and an instructor who is experienced in classes of this type, which cannot be duplicated in a web-based program.

Courses are based on a modular approach that allows tailoring of classes to individual client needs and objectives. Hands-on classes give students the opportunity to master application tasks under the direct assistance of the instructor and also provide a student, who has questions or is experiencing difficulty, to receive immediate attention. Hands-on classes can accommodate up to ten students for most courses, with the exact limit determined by course content.

Hands-on training from CivilTraining, LLC can utilize our portable training lab. Comprised of workstation class laptop computers, the portable training lab provides a comfortable learning environment for students with a small footprint that makes the lab suitable for use in most conference rooms. The CivilTraining, LLC portable training lab employs classroom management software that permits the instructor to watch each student's progress and to control a student's station, if needed, for individual attention. The entire CivilTraining, LLC portable training lab, including data and license servers, packs into Pelican cases for portability and mobilization to a client's site. Projectors in the lab are matched to the widescreen format of the CAD workstations, insuring that students are able to follow the instructor clearly, even in bright environments.

Courses offered by CivilTraining, LLC are registered Continuing Education (CE) classes with the AIA and meet CE/professional development hour (PDH) requirements for Alabama, Delaware Professional Engineers, Georgia, Illinois, Kentucky, Michigan, Missouri, Nevada, New Mexico, Ohio, Pennsylvania, South Carolina, Tennessee and Texas Professional Engineers, Utah, Virginia, and West Virginia, and courses submitted are approved for PDHs by the State of Delaware Board of Professional Land Surveyors. CivilTraining, LLC is an approved Florida (FL) Board of Professional Engineers CE Provider for Area of Practice courses and is an approved CE Provider with the FL Department of Agriculture and Consumer Services for the Board of Professional Surveyors and Mappers, License No. CE84. The Indiana (IN) State Board of Registration for Professional Engineers has approved this course for continuing education, and CivilTraining, LLC is an approved Land Surveyor Continuing Education Provider by the IN State Board of Registration for Land Surveyors Professional Licensing Agency. Courses submitted are approved for Continuing Professional Development by the Kentucky State Board of Licensure for Professional Engineers and Land Surveyors' Committee. CivilTraining, LLC is an approved provider of Continuing Professional Competency (CPC) requirements for Maryland (MD) Professional Engineers and Land Surveyors, approved by the MD Boards for Professional Engineers and Land Surveyors, and has received preapproval for courses submitted by the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Landscape Architects. The New Jersey (NJ) State Board of Architects has approved submitted courses for CE credits; CivilTraining, LLC is an approved provider to offer CPC credits for NJ Professional Engineers, and courses are approved for CE of Land Surveying by the NJ Board of Professional Engineers and Land Surveyors. CivilTraining, LLC is an approved sponsor of continuing education for Professional Engineers and Land Surveyors in New York State, NYS Sponsor #171. CivilTraining, LLC is an approved sponsor for North Carolina (NC) Engineers and Land Surveyors, approved by the NC Board of Examiners for Engineers and Surveyors and has received approval for providing CE credits for Rhode Island (RI) Professional Land Surveyors by the RI State Board of Registration for Professional Land Surveyors. The Tennessee Board of Examiners for Land Surveyors has reviewed and approved CivilTraining, LLC's training courses for continuing education. Several courses are approved for CE by the Vermont Board of Land Surveyors.
